

## Rudraksh Chourey AWS Assignment 4: Create Budget:

**Budget setup**

☒ Use a template (simplified)  
Use the recommended configurations. You can change some configuration options after the budget is created.

☐ Customize (advanced)  
Customize a budget to set parameters specific to your use case. You can customize the time period, the start month, and specific accounts.

**Templates - new**  
Choose a template that best matches your use case.

☐ Zero spend budget  
Create a budget that notifies you once your spending exceeds \$0.01.

☒ Monthly cost budget  
Create a monthly budget that notifies you if you exceed, or are forecasted to exceed, the budget amount.

☐ Daily Savings Plans coverage budget  
Create a coverage budget for your Savings Plans that notifies you when you fall below the defined target.

**Monthly cost budget - Template**

**Budget name**  
Provide a descriptive name for this budget:  
  
Names must be between 1-100 characters.

**Enter your budgeted amount (\$)**  
Last month's cost: \$0.00

**Email recipients**  
Specify the email recipients you want to notify when the threshold has exceeded.

Activate Windows  
Go to Settings to activate Windows.
